OFF ROAD HEAVY DUTY EQUIPMENT

Release loads quickly and completely with QuickSilver® Off Road heavy equipment liners from Linings Inc. The ultra slick surface of the liner reduces or eliminates carryback, increasing productivity.

With excellent sliding abrasion resistance and UV-, impact - and corrosion-resistant properties, QuickSilver® Off-Road heavy equipment liners release bulk materials such as overburden, clay, coal, minerals, ores, and dirt, even at freezing temperatures.

Add up the benefits of a QuickSilver® Off-Road Heavy Equipment Liner...

- Slick surface that releases loads quickly and reduces or eliminates carryback
- Sliding abrasion and UV-resistance that extends the life of the liner
- Impact and corrosion resistance that protects the integrity of the original equipment
- Impervious to freezing temperatures
- Quick, easy on-site installation that reduces time away from hauling

... and calculate the positive impact on your bottom line.

THE LINER THAT WORK .
ANYTIME. ANYWHERE.

[THE LINER THAT WORKS. ANYTIME. ANYWHERE]

[THE DURABLE DUMP BODY LINER SOLUTION.]

QuickSilver Lifetime Warranty

QuickSilver® dump body liners are engineered to withstand harsh field conditions, protect your equipment and handle any kind of bulk material, so no more:

- sticky or frozen loads
- shoveling
- backhoe cleanouts
- risky dump angles
- chewed up floors
- damaged hydraulics and brakes
- warming sheds
- washdowns

With Quicksilver® liners, drivers stay put and loads do the moving.

Handles hot asphalt with ease.

All kinds of loads.

Easily switch from hauling one bulk material to another. With QuickSilver® liners, you can haul hot asphalt mix one day, sand, gravel, aggregate, lime, topsoils, petroleum coke or some other material the next day.

All kinds of weather.

Loads move – during the dry or humid heat of summer and the subfreezing temperatures of winter.

All kinds of equipment.

From dump trailers and dump bodies to bottom dumps, gravel trains or transfer trailers, QuickSilver® liners mean faster load release and less equipment damage.

Dependability guaranteed.

Quicksilver® liners are so durable and dependable that Linings, Inc. guarantees their success. Lifetime warranty.

Tougher than the day is long.

QuickSilver®'s impact strength has been tested to – 100° F without cracking or breaking.

5 Year Warranty

Haul Away the Savings.

DURAPRO liners are bottom-line friendly. Not only is the up-front cost economical, but the payback is quick because:

- Aggregate carry-back is significantly reduced – increasing the number of loads hauled each day
- the original dump bed is protected – reducing floor replacement and general maintenance

Light Weight.

At 1/3 the weight of aluminum and 1/8 the weight of steel, DURAPRO liners won't add much weight to your trucks.

Let Your Work Slide.

When it comes to hauling sand, gravel, dirt, clay, and other similar items, you can let them slide... fast and easy... thanks to Linings Inc. DURAPRO dump bed liner.

Easy and Long Lasting.

DURAPRO liners are designed to make your job easier. It virtually eliminates shoveling. Your loads will flow faster and your beds will last longer.

The Durable Solution.

DURAPRO is an industrial strength, reprocessed polymer liner designed to outwear both aluminum and steel in most applications.

A Good Fit.

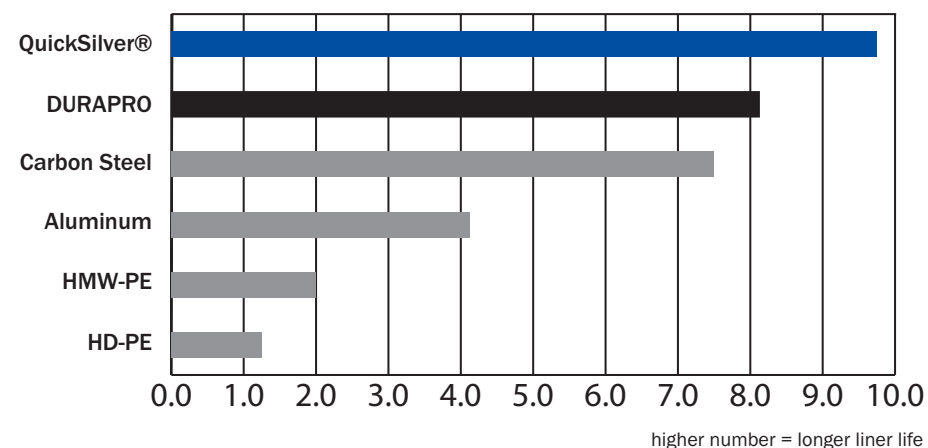

DURAPRO liners are available in kits that will fit any truck. All you need are bed dimensions to choose the kit that's right for your applications and workload requirements. Professional installation is recommended.
