www.wastequip.com

Only Mountain Tarp offers patented Chicken Coop tarps that are designed to keep chickens warm during transportation to processing plants. In colder climates or during the frigid temperatures of winter, unheated trailers with limited ventilation control can lead to extremely high poultry death rates during transportation. Live poultry can brave the elements with these heavy-duty, airbag material tarps.

- ▶ Double-reinforced pressure points with heavy-duty webbing
- ▶ Under 300 lbs. per side; sold by the side
- ▶ Airbag material tarp is reinforced with vinyl and steel cables
- ▶ Steel cables in tarp keep it locked against trailer
- ▶ Cables lower out of the loading area
- ▶ Manual winch or electric motor options raise and lower the main cable
- ▶ Custom-designed for your trailer
- ▶ One person can easily operate in as little as five minutes
- ▶ Folds to store behind trailer with locking hoops to secure folded tarp
- ▶ Steel-bearing rollers for smooth operation
- ▶ No-swing gates allow opening in confined areas
- ▶ Two-sided trailers can be loaded from either side

(1) Airbag material is reinforced with vinyl and steel cables (2) Electric motor option raises and lowers the main cable (3) Steel bearing rollers for smooth operation (4) Hoops lock the tarp compactly out of the way (5) Manual winch option
