

SMOOTH ROLL TARPING SYSTEM FOR SIDE DUMP TRAILERS

Tel: 800.248.7717 | sales@wastequip.com
www.wastequip.com

The Smooth Roll tarp system is designed with a heavy-duty tarp rod that tucks the tarp tightly under the driver's side trailer lip, allowing the side dump trailer to be dumped from either side. The system will open and close a 22 oz. reinforced vinyl tarp as well as a mesh tarp.

Features & Benefits

- ▶ Roll-up tarp system is designed to cover heaped loads
- ▶ Easy to install, with fully-assembled arms and factory-adjusted tension springs
- ▶ Heavy-duty spring assist, stainless steel chain and sprocket design, steel-constructed brackets, and aluminum arms ensure durability
- ▶ Lightweight (less than 300 lbs.)
- ▶ Remote control operation of electric 90:1 motor allows driver to operate tarp from cab
- ▶ Roll tube is twice as thick as competitive tarps, reducing tarp sag along the trailer and keeping tarp out of the way during dumping; flexibility to dump from either side
- ▶ System will open and close 22 oz. vinyl reinforced tarps
- ▶ Flush-mount arm allows clearance when trailer is jack-knifed
- ▶ Tension springs are preset/adjusted at the factory, but can be adjusted when tarp needs to fit tighter under lip of trailer
- ▶ Complete roll-up tarp system for customers with 34' and 36' trailers, as well as custom lengths. Full tarp system kit includes:
 - Front and rear arm assembly with mounting brackets
 - Remote control and toggle switch
 - Motor
 - Tarp
